BLACK STAMPED STEEL END BASES

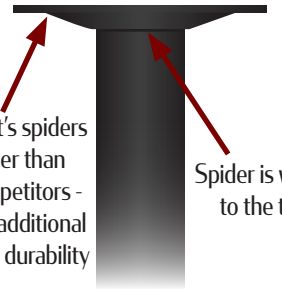

TUBE BOTTOM (BOTTOM)

Welded anchor plate at bottom of tube.

Anchor plate also has a welded nut on back of anchor plate.

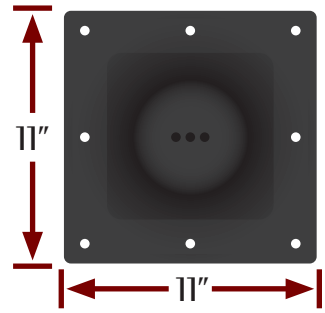

SPIDER / TUBE TOP (SIDE)

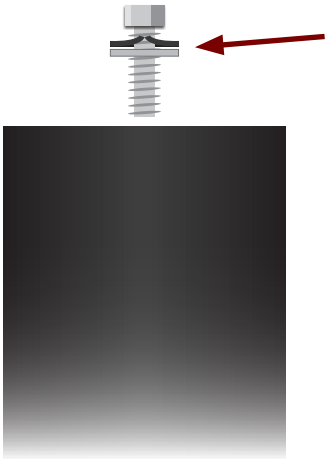

Oak Street's spiders are bigger than most competitors - providing additional strength & durability

Spider is welded to the tube

SPIDER (TOP)

TUBE BOTTOM (SIDE)

Oak Street uses a short bolt to screw into the welded anchor plate. This is a much improved method than the competitors, which use a long rod that will torque & stretch when force is applied - making it permanently loose.

Our bolt also has both a lock washer & a flat washer. The flat washer keeps the lock washer from catching on the anchor plate, preventing the bolt from becoming loose.

BASE (TOP)

Stamped Steel base - most competitors use cast iron bases, which is a soft & brittle metal.

BASE (BOTTOM)

Welded glide tabs with hollow back - not possible with cast iron bases - drastically reduce the chances of having a bad tab for glides.

Standard Height (-STD)
28.75″ overall height

Counter Height (-CTR)
34.75″ overall height

Bar Height (-BAR)
40.75″ overall height

Overall height does not include table top.

- Constructed of stamped steel for unparalleled strength & stability - will not fracture under heavier weights like cast iron bases
- Black sandtex finish
- Easy two-piece construction for quick assembly
- Includes non-marring adjustable levelers
- Spider attaches to tabletop with (8) 3/4″ - #10 screws
- Recommended to use one size larger base for bar height applications
- Compatible with 3″ or 4″ standard, counter (3″ only) or bar height columns

BASE SIZE	PART #	WEIGHT
5″ x 22″	SSB522	8 lbs
5″ x 30″	SSB530	10 lbs
